TOPICS

Morning Keynote **Derek Clark** knows first-hand about coping with adversity and overcoming hardship: his 13 years in the foster system reflect a childhood of humiliation, aggression, emotional distress, and overwhelming anxiety. However, suffering unthinkable child abuse did not hold Derek back from accomplishing what he set his heart and mind on, thanks to his belief in himself and the people who encouraged him to go forward in life to become a successful speaker, author, and singer/songwriter.

Session One Workshops include *Positive Youth Development* and *Creating a Free Website with Free Online Tools*

Session Two Workshops include *Email Communication for Nonprofits* and *Let Them Fly! Youth Empowerment*

Lunch Keynote **Dr. Tom Keller**, founder of the *Summer Institute on Youth Mentoring* at Portland State University, joins us to make sense of the accumulating knowledge and experience from the growth and development of programming along with the expansion of theory and research. Dr. Keller will give examples of how models and metaphors can help to make research findings and practice wisdom more interpretable, more memorable, and more relevant.

Session Three Workshops include *Culturally Smart Relationships* and *Recruiting Volunteers on Any Budget*
